

# Breast Cancer: Donations Needed for Dr. Susan Love's Breast Book

In the Fall of 2000, a fund was established to purchase Dr. Susan Love's Breast Book for women diagnosed with breast cancer and who are receiving treatment at the Northeastern Ontario Regional Cancer Centre in Sudbury. These books are distributed free of charge to patients to assist them in understanding the disease and educate them in the types of treatment available.

Since inception of this project, over 202 books have been given out to women. *Funds to purchase new books are running low.* More donations are needed to keep this project going.

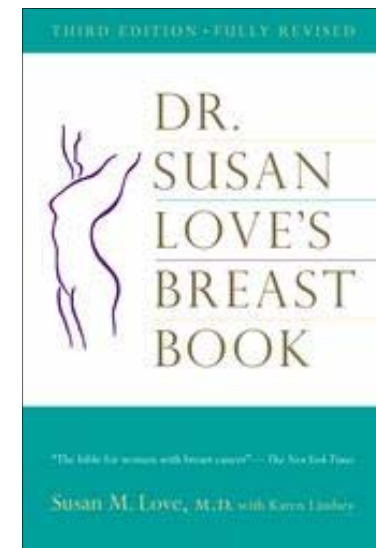

Donations can be mailed directly to the Northeastern Ontario Regional Cancer Centre in memory of Christina King-Séguin at the following address:

**Northern Cancer  
Research Foundation  
41 Ramsey Lake Road  
Sudbury, Ontario  
P3E 5J1  
Attention: Melissa Beauchamp**

Donations should be marked in memory of Christina King-Séguin so that the funds are used specifically for this project. (The project was originally started and set up in Christina's memory.) Charitable donation receipts will be issued for all donations for income tax purposes. Donations in any amount will be greatly appre-

ciated and will help keep this important project accessible to women battling breast cancer.

Thanks to all who donate.
